

# Company Profile

Providing Total Solutions

## About Us

Enisave Solutions (Pty) Ltd has evolved into a leading electrical engineering company that offers a unique range of products and total solutions to our customers.

We believe that every customer has the right to best quality products and service that is second to none.

With this in mind we have expanded our products and solutions to include an extensive range of energy saving products, abrasives, sealants, tapes, power tools and safety products.

We also offer services that include compliance certification of electrical systems, thermography of electrical and mechanical applications, data recording and energy metering.

As market leaders in electrical maintenance in both the domestic and commercial sectors, modular building installations and contracting, we pride ourselves on the relationships we have established with our long-term and repeat business customers.

These relationships have been built over many years of quality and reliable service.

By taking the time to understand our customer's individual requirements we ensure we provide them with the best solution based on our technical knowledge and experience.

## Our Vision

Enisave Solutions (Pty) Ltd serves as a catalyst providing Total Solutions utilising innovative technology in order to transform the South African economy.

## Our Mission

Our mission is to implement advanced innovative Total Solutions in ways that will add much value to our customers. We provide our customers with experience, quality, dedication, and professionalism and as a result have become a leader in the industry.

## Keys to Our Success

- Maintain and build upon existing customer contacts and relationships
- Continue to provide quality products and services at competitive prices
- Expand levels of service into new regions
- Offer new services that complement existing services by implementing locally produced products and solutions
- Providing Total Solutions to our customers
- Staying abreast of latest technological changes and market trends and apply appropriate strategies

*Providing Total Solutions*

## Our Services

Enisave Solutions provides premier electrical contracting and maintenance for all our customers in commercial, domestic and industrial markets throughout KZN, Gauteng and Eastern Cape regions.

Our services include project management, design, supply, installation, testing plus commissioning and maintenance of electrical systems.

As an electrical services company, Enisave Solutions places great emphasis on its relationship with clients, private or commercial and pride ourselves on the ability to respond to your contracting requirements in an efficient and cost effective way.

We work closely with our customers, ensuring that the task or project is completed on time and on budget, using the highest quality products available.

We also advise our customers of any cost saving measure that can be utilised and can assist with any safety requirements. By using our skills and experience we build ongoing and lasting relationships with our customers.

## Our Values

The following Values are the foundation upon which we base our work ethic, decision making and customer relationships;

- Integrity
- Trust
- Partnership
- Diversity
- Ingenuity
- High Performance

# Our Services

Our goal is to provide our customers with the best quality products and solutions and with our team of experienced and passionate tradespeople and technicians, we pride ourselves on building great customer relationships.
